"I gave up hope. But y'all didn't give up on me. The doctors and therapists didn't give up on me. And I said, 'Well then, why am I going to give up on me if you wont?'"

"When I first came here in 1995, I was so scared. They offered help, but also activities that would get people's minds off things - going bowling, going to see a movie. As time went on, I decided, 'Okay, these are good people.' I started making friends, I started getting motivated to get through life."

"My kids, (three ranging in age from 14 to 21), went from having a mother who was terrified of everything, to a mom who can show up for them. Who holds down a job and can go where they need me and stand up for them, if they need that. Even small things! Like if my mom wants cookies I can run to the store for her. I can't thank them enough for everything they've done. Derek Rock, my employment specialist, gave so much emotional support when I was going to job interviews. They helped me believe that I can do what I set my mind to. In my eyes, Sound helped me become me."
